

Member Mobile Website

For iOS and Android Smartphone Users

Provides short-cut access to the most popular health plan tools and information that members need “on the go.”

How do I access the mobile website?

It's automatic. Anytime you search for CoOpportunity Health from your smartphone browser, you will automatically be served up the mobile version of the member website.

Can I still access the full site?

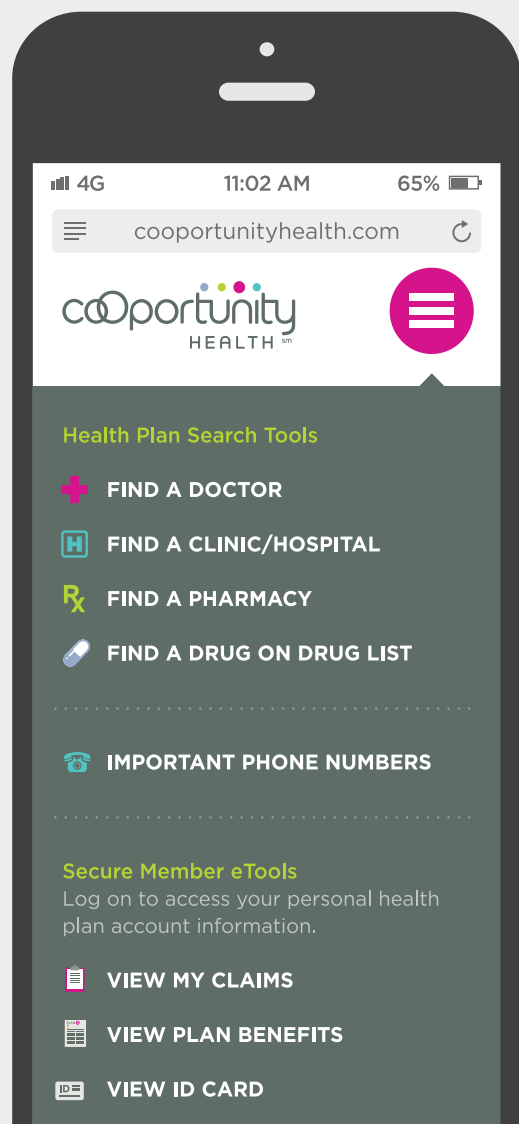

Yes. Our full website can still be accessed from a smartphone simply by clicking on “View Full Site.”

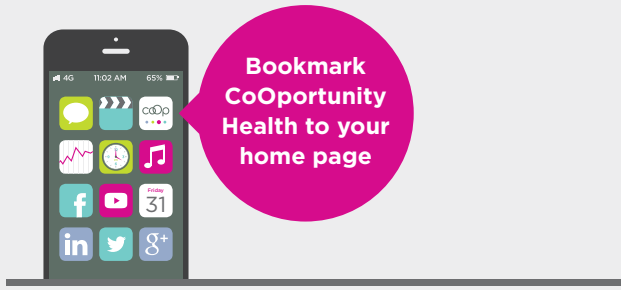

Will tablets redirect to the mobile version of the website?

No. The full version of our website displays nicely on desktops and tablets, so we will not be redirecting devices like iPads or notepads.

Looks like not all tools are optimized for mobile platforms.

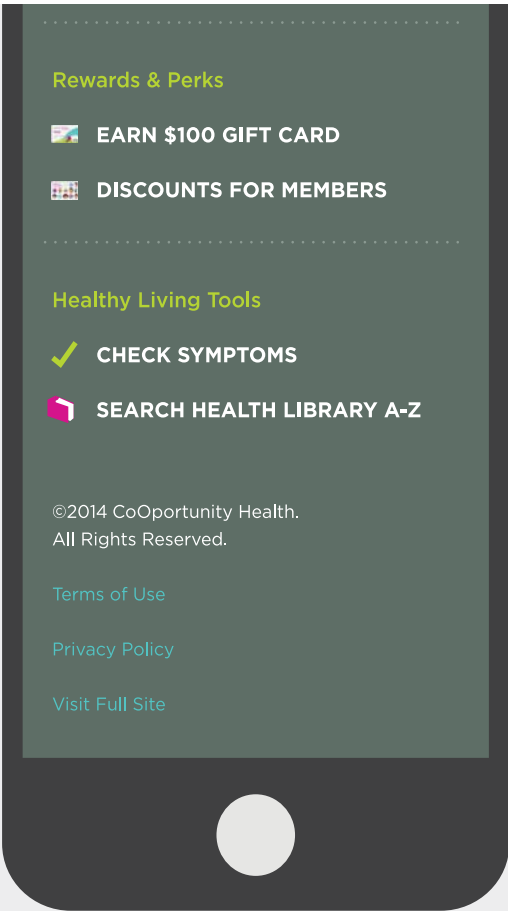

That's right. This is Phase 1 of the mobile website. We wanted to launch what was available now. As soon as tools are optimized, we will be releasing them so watch for ongoing improvements. Send any questions or suggestions to info@coOpportunityhealth.com.

Like an app, is there a convenient way I can save the link to the mobile website?

Absolutely. Simply “bookmark to your home page” from your phone’s toolbar and the icon for CoOpportunity Health will be added to your home page. Remember, this is a mobile website, **not** an app. Apps are more costly to develop because they are written for specific operating platforms (like Apple iOS or Android), require significant maintenance updates/releases to stay current, and can only be downloaded from the app stores like Apple iTunes or Google Play. We felt a mobile website would be most cost effective and provide more universal access for our members.
