## Your Guide to Specialty Drug Coverage

CoOpportunity Health has established special guidelines for specialty drugs. Learn what steps you need to take when filling a prescription for specialty drugs.

CVS Caremark Specialty Pharmacy is CoOpportunity Health's specialty pharmacy. Contact them by telephone at **1.888.493.5392** to fill your prescriptions for specialty medications.

Specialty medications are generally prescribed by providers focused on the treatment of chronic, complex diseases. These medications usually require a higher degree of management, have a high price and are not generally stocked at retail pharmacies. Please refer to your coverage documents to learn more about your benefits for specialty medications.

If the drug requires prior approval, your doctor can make this request by completing the **Prior Authorization / Exception Form**.

**Need help?** Call Member Services at **1.888.324.2064** and ask to talk to a Pharmacy Navigator.

**This list is subject to change.**

PA = prior approval, ST = step therapy, QL = quantity limit, NF = non-formulary (New drugs are NF PA until reviewed.) TD = Drugs included in the Trial Drug program. Please see coOpportunityhealth.com for full coverage criteria.

\*Drugs not subject to specialty medication copays; standard benefits apply. Generic formulations are indicated by lowercase names. (e.g., ribavirin)
